## School Nutrition & BMI Reporting\*

State	Bill	Description	Sponsor	Status
AK	HB 80	Prohibits soft drinks from being sold during the hours of 8 am through 5 p.m.	Kapsner	2/5/03 Introduced
AR	HB 1011B	Amends language enacted last year that banned the sale of foods and beverages through vending machines in schools. This bill authorizes schools to send not only an academic report card home with students, but also a report card detailing the student's health status, specifically the student's body mass index (BMI). The report card will be accompanied by an explanation of the health effects of BMI, nutrition and physical activity.	Boyd	1/5/04 Signed by Governor
CA	AB 2327	Requires the State Department of Education to incorporate specified nutrition and physical activity education curriculum at its next revision of the curriculum framework.	Chan	2/19/04 Introduced
CA	SB 74	Requires vending machines located on state property to offer foods and beverages that meet nutritional guidelines.	Torkalson	1/22/03 Introduced
CO	SB 103	Requests school districts to work with contractors to increase the nutritional value of food offered to students in school vending machines and phase in higher nutritional standards as vendor contracts are renewed. School district boards of education are required to adopt policies implementing a fifty percent threshold, meaning half of all vending machines shall offer healthful foods and beverages by the 2006-2007 school year. Restricts new vendor contracts by prohibiting school districts from entering into or renewing a contract that provides for the sale of unhealthy foods or unhealthy beverages unless the 50 percent threshold exists. Defines terms.	Sandoval	1/12/04 Introduced
FL	SB 306	Childhood Obesity Prevention Act; requires school districts to place restrictions on vending machines in schools.	Margolis	3/2/04 Introduced
FL	HB 169	Restricts the sale of drinks and non-nutritious snacks in schools. Requires school districts to adopt restrictions for schools within the district.	Sobel	11/13/03 Prefiled 2/26/04 Withdrawn prior to consideration
HI	HB 1939	Vending machines on school grounds shall only dispense water, milk, and one hundred per cent fruit juice. All other beverages are prohibited.	Hiraki	1/23/04 Introduced
HI	HB 1890	Bars vending machines from public schools unless food and beverage items meet nutritional standards yet to be established by the board of education. Establishes a baseline for those nutritional standards.	Arakaki	1/23/04 Introduced
HI	HB 1891	Regardless of means of sale, the sale of all foods to elementary grade students shall be limited to full meals sold breakfast and lunch; fruit, nonfried vegetables, legumes, beverages, dairy products, or grain products sold as individual food items may be sold during times of a break in the school schedule if they meet specific nutritional standards. Restricts type of beverages that may be offered to elementary, middle and high school students.	Arakaki	1/23/04 Introduced
HI	HB 1799	Restricts food items offered for sale in school vending machines according to nutritional standards yet to be developed by local school boards provided that, unless the board requires stricter rules, food and drink items sold from vending machines meet the following criteria: Food items may not contain more than 35 percent calories from fat (excluding nuts or seeds); saturated fat content may not exceed 10 percent of the total caloric content; and sugar content may not exceed 35 percent of the item's total weight (excluding fruits or vegetables). Drink items may include drinking water, milk and electrolyte replacement drinks that contain no more than 42 grams of added sweetener per 20 ounce serving.	Oshiro	1/22/04 Introduced
HI	HB 1670	Pupil Nutrition, Health, and Achievement Act of 2003: sets restrictions on food and beverage items sold by schools and through vending machines.	Arakaki	1/24/03 Introduced
HI	HB 1428	Establishes a grant driven voluntary school nutrition demonstration project to gauge the effects of nutritional standards in schools.	Arakaki	1/23/03 Introduced
HI	SB 2147	Regardless of means of sale, the sale of all foods to elementary grade students shall be limited to full meals sold breakfast and lunch; fruit, nonfried vegetables, legumes, beverages, dairy products, or grain products sold as individual food items may be sold during times of a break in the school schedule if they meet specific nutritional standards. Restricts type of beverages that may be offered to elementary, middle and high school students.	Chun	1/23/04 Introduced

## School Nutrition & BMI Reporting\*

State	Bill	Description	Sponsor	Status
IL	HB 3974	Prohibits soft drinks and candy from being sold to students via school vending machines, starting January 2005.	Cross	12/23/03 Introduced
IL	HB 4058	Prohibits a public school from selling, offering for sale, or otherwise offering or providing soft drinks to pupils at school at any time, with exceptions. Places restrictions on vending machines located at schools or on school grounds.	Miller	1/14/04 Introduced
IL	SB 2940	Existing law requires children to obtain health exams prior to entering public schools as governed by the Department of Public Health. The Department and the State Board of Education have developed a uniform form that health care providers use to report required information. This bill would amend the requirements to include the collection of data relating to obesity.	Hunter	2/6/04 Introduced <b>3/2/04 Passed Senate</b>
IL	SR 438	Recommends creation of a Nutritional Advisory Committee to recommend state-wide school standards for nutrition including formulating a state-wide policy on vending machines in all schools.	Clayborne	2/25/04 Introduced
IL	SB 2898	Sets requirements for competitive foods served as part of the school food program.	Martinez	2/6/04 Introduced
IL	SB 2941	Sets standards for beverages and foods sold in school vending machines. Requires the State Board of Education to prepare and distribute a list of products that meet the standards.	Hunter	2/6/04 Introduced
IN	HB 1014	Requires the board of education establish model standards for local school districts to follow in regards to nutritional content of food and beverages, physical activity standards and measuring BMI of students. Requires that fifty percent (50%) of all beverages and food offered for sale in schools meet the definition of "healthy" as defined by the bill.	Brown	1/26/04 Amended <b>2/4/04 Passed House</b>
KY	HB 148	Prohibits the sale at school, during the school day, of chewing gum, water ices, foods with more than 40% added sugar by weight, and other certain other items with more than six grams of fat. Prohibits the sale of any food or beverage in competition with the School Breakfast Program or National School Lunch Program until 30 minutes after the close of the last lunch period, but exempts water, low-fat milk, or juice with at least 25% of real juice from the prohibition. Restrictions would become effective during the 2005-2006 school year. The bill also requires each school district to appoint a food service director and require credentialing. Establishes penalties for failure to comply with school food sale prohibitions.	Burch	1/6/04 Introduced <b>1/22/04 Passed House</b>
KY	HB 218	Sets standards for the sale of certain food, beverage, and snack items in vending machines. Permits high schools to sell soda waters 30 minutes after the close of the last lunch period. Prohibits the sale of certain foods inconsistent with the School Breakfast Program or National School Lunch Program until 30 minutes after the close of the last lunch period. Permits schools to sell water, low-fat milk, or juice that contains at least 25% real juice at any time during the school day, only high schools are permitted to sell soda waters at designated times. Provides that a la carte foods on the cafeteria line meet federal standard for breakfast or lunch components. Requires each school district to appoint a food service director. Establishes penalties for failure to comply with the food standards in schools. Requires the Kentucky Department of Education to develop guidelines to incorporate planned, sequential instruction within the elementary and middle school curriculum that promotes lifelong physical activity for implementation in the 2006-2007 school year.	Burch	1/7/04 Introduced
