Released May 2012
Sick in America: Experiences with Health Care Costs

*Sick being defined as those who had a serious illness, medical condition, injury or disability requiring a lot of medical care OR who had been hospitalized overnight in the past 12 months.*
Sick in America:
Costs of Care Impact on Family’s Financial Situation

Thinking about the cost of your medical care over the past 12 months, how would you describe the overall impact of your medical care costs on your or your family’s financial situation? Would you say your medical care costs caused a problem for your or your family’s overall financial situation, or not? (If problem) Was it a very serious problem, somewhat serious, or not too serious a problem? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

- Very serious problem: 20%
- Somewhat serious problem: 23%
- Not too serious a problem: 10%
- Not a problem: 47%
Sick in America: Out of Pocket Costs

Is the cost of what you have to pay out of pocket when you get medical care – that is, costs you pay directly to your doctor, hospital, pharmacy or therapist that are not covered by insurance – a problem for you, or not? (If problem) Is it a very serious problem, somewhat serious, or not too serious a problem? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

- A very serious problem for you: 25%
- A somewhat serious problem: 23%
- Not too serious a problem: 7%
- Not a problem at all: 44%

Note: “Don’t Know/Refused” responses not shown.
In the past 12 months, did you have a problem with your insurance paying a hospital, doctor or other health care provider? *(Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months who are insured or were insured in the past 12 months, n=497)*

- Yes: 23%
- No: 76%

Note: “Don’t Know/Refused” responses not shown.
Sick in America: 
Views on Reasonability of Cost of Care - Question 1

Do you think that the amount you paid for the medical care you received during the past 12 months was reasonable or unreasonable? Was that very or somewhat (reasonable/unreasonable)? (Asked of half of the sample of those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=253)

Sick in America:
Views on Reasonability of Cost of Care - Question 2

Overall, do you think that the cost of the medical care you received during the past 12 months was reasonable or unreasonable? Was that very or somewhat (reasonable/unreasonable)?  
(Asked of half of the sample of those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=263)

- **Very reasonable**: 29%
- **Somewhat reasonable**: 27%
- **Somewhat unreasonable**: 20%
- **Very unreasonable**: 18%

Note: “Don’t Know/Refused” responses not shown.
Sick in America: Receiving Medical Care in the Past 12 Months

Was there any time during the past 12 months when you needed medical care, but did not get it, OR did you get medical care every time you needed it during the past 12 months? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

Needed care, but I did not get it

- 17%

Got care every time I needed it

- 82%

Note: “Don’t Know/Refused” responses not shown.
Sick in America: Reasons for Not Receiving Medical Care When It Was Needed

Was it mainly because (you could not afford that medical care), (your health insurance would not pay for that medical care), or (that medical care was not available in your community)? *(Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months AND needed medical care but did not get it, n=75)*

- You could not afford to get care: 52%
- Your health insurance would not pay for it: 24%
- It was not available in your community: 18%

Note: “Don’t Know/Refused” responses not shown.
Sick in America: Not Able to Receive Needed Medical Care by Insurance Status

Was there any time during the past 12 months when you needed medical care, but did not get it, OR did you get medical care every time you needed it during the past 12 months? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

Responses of those who...

Had insurance the entire year

10%

Were without insurance at some point over the last 12 months

40%*

*Statistically significantly greater than those who had insurance the entire year.
Was there any time during the past 12 months when you tried to get medical care and were turned away by a doctor or hospital for financial or insurance reasons, or not? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

Yes

11%

No

89%
Sick in America:
Cost of Health Insurance as a Problem

Is the cost of your health insurance premiums a problem for you, or not? (If problem, ask:) Is it a very serious problem, somewhat serious, or not too serious a problem? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months AND currently have health insurance, n=484)

- A very serious problem: 13%
- A somewhat serious problem: 14%
- Not too serious a problem: 8%
- Not a problem: 65%
Sick in America: Occurrences of Negotiation for a Lower Charge

In the past 12 months, was there a time when you were able to negotiate a lower charge from a doctor or hospital, or not? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

Yes

13%

No

87%
Sick in America: Patients Who Have Changed Their Doctor

In the past 12 months, have you changed the doctor you were regularly going to, or not? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

Yes  22%

No  78%
Sick in America: 
Reason for Changing Doctor

Was that mainly (because of a quality problem), (because of a cost problem), (because the doctor was no longer available), or for some other reason? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months AND changed doctor in past 12 months, n=98)

Sick in America: Experiences with Quality of Care

Sick being defined as those who had a serious illness, medical condition, injury or disability requiring a lot of medical care OR who had been hospitalized overnight in the past 12 months.
Sick in America: Experiences with Health Care Professionals When Dealing with Own Medical Problem, Part 1

In the past 12 months, was there ever a time when dealing with doctors, nurses or other health care professionals about your own medical problem when any of the following things happened? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

- A doctor, nurse or other health professional did not spend enough time with you: 30%
- A doctor, nurse or other health professional was not accessible either by phone or in person: 27%
- Your condition was not well-managed: 26%
- A doctor, nurse or other health professional did not provide all the needed information about your treatment or prescriptions: 25%
Sick in America:
Experiences with Health Care Professionals When Dealing with Own Medical Problem, Part 2

In the past 12 months, was there ever a time when dealing with doctors, nurses or other health care professionals about your own medical problem when any of the following things happened? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

You had to see multiple medical professionals, and no one doctor understood or kept track of all the different aspects of your medical issues and treatments

- 23%

A doctor, nurse or other health professional did not treat you with dignity and respect or did not listen to your concerns

- 21%

A doctor, nurse or other health professional did not describe the choices and trade-offs of possible tests or treatments

- 21%

You were not treated as well as other patients because of your health insurance situation

- 15%
Sick in America: Experiences with Quality of Health Care - Part 1

In the past 12 months, when dealing with your own medical problem, was there ever a time when any of the following things happened? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

- You had to wait for an appointment with a doctor longer than you thought reasonable: 35%
- You had to bring an X-ray, MRI, or other type of test result with you to a doctor’s appointment: 28%
- You saw a health care professional who did not have all of your relevant medical information: 24%
- You had to wait for test results longer than you thought reasonable: 20%
- You did not get all the tests you thought you should: 18%
- You did not get a treatment or test because your insurer wouldn’t pay for it: 18%
In the past 12 months, when dealing with your own medical problem, was there ever a time when any of the following things happened? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

The doctor or other health professional recommended to you was not accepting new patients or taking your insurance or Medicare

- 16%

You did not have access to the latest medical technology

- 16%

You were tested or treated for something you thought was unnecessary

- 15%

You had to redo a test or procedure because the doctor didn’t have the earlier test results

- 15%

You could not get an appointment or referral to see a specialist you thought you needed

- 14%

You believe you were given the wrong diagnosis, treatment, or test

- 13%
Sick in America: Level of Satisfaction with Quality of Care Received

How satisfied were you with the quality of medical care you received during the past 12 months? (Asked of those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)

- Very satisfied: 47%
- Somewhat satisfied, but some things could have been better: 39%
- Somewhat dissatisfied, a lot of things could have been better: 9%
- Very dissatisfied: 4%

Note: “Don’t Know/Refused” responses not shown.
Sick in America: Experiences with Hospitalization

Among those who have been hospitalized overnight in the past 12 months.
Hospitalized in America: Level of Satisfaction with Quality of Care Received

How satisfied were you with the quality of medical care you received while you were in the hospital? Very satisfied; somewhat satisfied, but some things could have been better; somewhat dissatisfied, a lot of things could have been better; or very dissatisfied? (Asked of those who have been hospitalized over night in the past 12 months, n=291)

- Very satisfied: 51%
- Somewhat satisfied, but some things could have been better: 32%
- Somewhat dissatisfied, a lot of things could have been better: 7%
- Very dissatisfied: 9%

Note: “Don’t Know/Refused” responses not shown.
Hospitalized in America: Views on Reasonability of Cost of Care - Question 1

Do you think that the amount you paid for the medical care you received in the hospital was reasonable or unreasonable? Was that very or somewhat (reasonable/unreasonable)? (Asked of half of the sample of those who have been hospitalized over night in the past 12 months n=138)

Overall, do you think that the cost of the medical care you received in the hospital was reasonable or unreasonable? Was that very or somewhat (reasonable/unreasonable)? (Asked of half of the sample of those who have been hospitalized over night in the past 12 months n=153)

Very reasonable

- 23%

Somewhat reasonable

- 24%

Somewhat unreasonable

- 18%

Very unreasonable

- 26%

Note: “Don’t Know/Refused” responses not shown.
During your overnight (stay/stays) in a hospital during the past 12 months, was there ever a time when any of the following things happened? (% ‘Yes’ among those who have been hospitalized overnight in the past 12 months, n=291)

Nurses were not available when you needed them or did not respond quickly to requests for assistance

34%

There was poor communication among the doctors, nurses and other health care professionals involved in your care

30%

Doctors, nurses and health care professionals did not communicate information about your condition or treatment clearly to you or a family member

24%

Doctors were not available or did not respond quickly when you needed them

20%

The doctors and nurses did not give you the information you needed about your care after leaving the hospital

20%

Doctors, nurses or other health care professionals did not wash hands or use hand sanitizer every time before entering the room or examining you

17%
During your overnight (stay/stays) in a hospital during the past 12 months, was there ever a time when any of the following things happened? (% ‘Yes’ among those who have been hospitalized over night in the past 12 months, n=291)

Your room was not clean enough
- 16%

You did not have enough privacy
- 15%

You believe you were given the wrong diagnosis, treatment or test
- 11%

You got an infection while in the hospital
- 8%

Nurses did not check your name or allergies before giving you treatment or prescriptions
- 8%

You were treated poorly because of your race, ethnicity, cultural background or language
- 6%
Sick Americans’ Assessment of Health Care Costs and Reasons for Cost of Care Problems
Sick Americans’ Views on the Costs of Health Care in the Country

Generally speaking, do you think health care costs are a problem for the country, or not a problem? (If problem) Do you think it is a very serious problem, somewhat serious, or not too serious a problem? (Among those who had a serious illness, medical condition, injury or disability requiring a lot of medical care or who had been hospitalized overnight in the past 12 months, n=516)
