Please read the following statement closely and answer the question below.

**[SPLIT A]** Why pay a big fine for not having health insurance and get nothing in return? If you don’t have health insurance, you could pay a fine of $325 or 2% of your annual income, whichever is higher. Instead, take the time to find health coverage that fits your needs and budget.

**[SPLIT B]** Having health insurance is the law. If you don’t have it, you could pay a fine of $325 or 2% of your income, whichever is higher. The fine increases each year, which means you’ll pay $695 in 2016 or 2.5% of your income.
23. Now that you’ve learned more, if you are still uninsured, how likely would you be to look into the new health plans available through HealthCare.gov/STATE MARKETPLACE during the next open enrollment period, which starts November 15, 2014?
